¹ Magyar Posta plans to make the use of the eAuthorisation business application available from 1 March 2019. Information on the actual start of applying the contractual conditions will be provided in an announcement.

² A person with simple registration may only give an authorisation with a suspended status and, in order to arrange the verification prior to activating the authorisation, the person granting the authorisation must visit the postal service point in person. The authorised person may only accept mail items on behalf of the person granting authorisation after activation.
